

Model 60 6-valve DW 1939
3 knobs (no power switch)

Model 60 ^{type} 5-valve DW 1939

5 Knobs. no RF stage
has on/off sw

601st when using RL408 on rail

RB408
in some models

Model 60 has 3 control knobs
 & 6 push buttons

S/N 94177 capictone-tubal IFTs

S/N 94297 has permeability-tuned IFTs

first model? $\rightarrow$ algorithm IFS
Note: this model
has permeability - normal IFS

(as last model 172)
Columbus

172-0348
has capi 2
30

2-30

$$\frac{2}{30}$$
